Alto 1 Standing desk
Single motor 2 stage frame

Our new Alto 1 desks make ergonomic height adjustable working an affordable prospect.

With a quiet motor providing smooth height adjustment and a simple, easy-to-use control panel Alto 1 offers an economical height adjustable desk solution suited to your workspace. Multiple desktop finishes are available to match Alto 1 to your existing desking.

EASY TO ASSEMBLE

Easy-to-use control panel for desk height adjustment

Smooth and quiet height adjustment

Advanced anti-collision system with adjustable sensitivity prevents contact with objects beneath desk during height adjustment
If an obstacle is detected the motor instantly stops and reverses.

Width adjustment
Desk frames will hold a range of desktop sizes and styles

2 stage reversed rectangular columns with single motor

METALICON

Linx
Magnetic cable management spine

Designed with strength, flexibility and ease of installation in mind, Linx offers the latest developments in superior cable management.

The unique 'twist not pull' linking system ensures the vertebrae will never pull apart under tension, but will detach very easily when twisted sideways. This ensures that Linx never comes apart while in use, but remains incredibly easy to extend and manipulate when needed.

The new Linx Limpet makes installation quick and easy, fixing the spine to cable trays or desk frame with a magnet. The spine can be easily relocated if required.

Choose from different lengths for fixed height or sit/stand desks or without the base for use between cable trays on sit/stand benches.
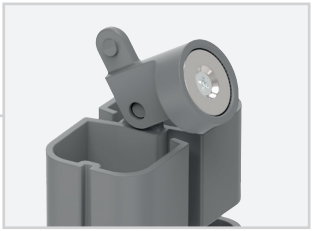

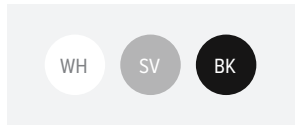

Limpet magnetic fixing
Mount Linx anywhere on cable tray or desk frame
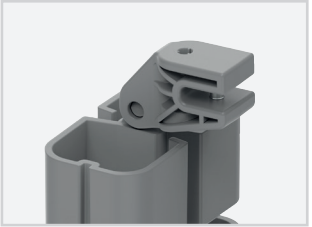

Alternative multipurpose fixing clamp
Mount to cable tray, wire basket or desktop

Incredibly easy to adjust position and length and insert cables

Dual cable compartments
Segregated power and data cables (30mm x 25mm)

Large stable base
Weighted base with dual cable exits

METALICON

Fabric Cable Sock
Zip-up vertical cable wrap

Designed for use with a standard height desk the vertical sock is a versatile cable management solution. Made from 600g polyester mesh this durable fabric sock provides ample cable capacity. Internal hook and loop straps keep power and data cables segregated, meeting criteria for the BS 6396 standard.

Adjustable hook and loop strap provides fine height adjustment

Flexible zip design allows cables to enter at any height

Quick and easy to use

Internal straps keep cables segregated

Ultra lightweight

Available in white, grey or black

METALICON

Cable trays
## Metal trays + desk inserts

Untidy power and data cables are unsightly, make cleaning difficult and can pose a safety risk. Use of a cable tray underneath the desk helps to keep cables neat and tidy and the workspace clear.

The Metalicon range of simple but strong steel cable trays fits most desk sizes and arrangements.

(WH) (SV) (BK)   *Match finish to desk frame*

Solo Plus
In-desk power + data

Solo Plus offers the same compact simplicity of Solo with a single UK power socket and 18W USB-A Quick Charge socket plus the addition of 2 x 45W USB-C Power Delivery sockets - all in one Ø80mm module!

Choose from HDMI or RJ45 data transfer inserts for both sides of the module or alternatively have them blank or leave empty for use as cable pass-throughs.

The module can be secured in place with a simple screw-on collar or, if space under the surface is limited, with the alternative securing tabs, tightened from above.
