

T45

design office

DESKTOP

38mm easy to clean scratch-resistant anti-reflective melamine faced chipboard (MFC) tops finished with 2mm matching straight Abs impact resistant edges. Tops are linked to the legs by 45° mitred joints to form 90° corners.
Panel density: 670/730 kgs per cubic meter

Finish
options:

PANEL END LEG

Made from 38mm easy to clean scratch-resistant anti-reflective melamine faced chipboard (MFC) finished with 2mm matching straight Abs impact resistant edges
Panel density: 670/730 kgs per cubic meter

Finish
options:

0-20mm steel adjustable levelling feet with round Abs molded scratch-resistant base. 25mm diameter.

MODESTY PANEL

18mm easy to clean scratch-resistant anti-reflective melamine faced chipboard (MFC) structural modesty panel finished with 1mm matching straight Abs impact resistant edges
Panel density: 670/730 kgs per cubic meter

RETURN UNIT

Return unit sitting 38mm below desktop surface. Fabricated from 38mm easy to clean scratch-resistant anti-reflective melamine faced chipboard (MFC) finished with 1.5mm matching straight Abs impact resistant edges. Panels are linked together by 45° mitred joints to form 90° corners.

COMBINATION UNIT SUPPORTING FLUSH RETURN TOP

Fabricated from 18mm easy to clean scratch-resistant anti-reflective melamine faced chipboard (MFC) finished with 1.5mm matching straight Abs impact resistant edges. Panels are linked together by 45° mitred joints to form 90° corners.
The combination unit back can either come in 18mm melamine faced chipboard (MFC) or 1mm matt white fingerprintproof scratch resistant epoxy powder coated perforated steel sheet metal.

SUPPORTING SLIDING DOOR LOW CREDENZA UNIT

Fabricated from 18mm easy to clean scratch-resistant anti-reflective melamine faced chipboard (MFC) finished with 1mm matching straight Abs impact resistant edges. Four 94×30mm pentagon-shaped matt white epoxy powder coated steel legs complete with 0-20mm steel adjustable levelling feet with round Abs molded scratch-resistant base. The credenza back can either come in 18mm melamine faced chipboard (MFC) or 1.5mm thick matt white fingerprint-proof scratch resistant epoxy powder coated perforated steel sheet metal.

RETURN UNITS: STATIC PEDESTAL

Carcass made of 18mm melamine faced chipboard (MFC) finished with 0.4mm melamine edging. Top and drawer fronts made of 18mm melamine faced chipboard (MFC) finished with 1mm Abs impact resistant edges. Easy to clean scratch-resistant anti-reflective melamine available in four finish options with a textured and a smooth surface.

TOPS FOR MEETING/BOARDROOM TABLES

Fabricated from 38mm easy to clean scratch-resistant anti-reflective melamine faced chipboard (MFC) finished with 2mm matching straight Abs impact resistant edges. Grain on tops runs along the length of the table (end-to-end). In cases where a table is made of two or more sections, the grain structure may vary between adjacent sections. 85mm high 30mm thick MFC built-up edges fitted to tops using 45° mitred joints to form 90° corners. 85mm high 30mm thick MFC built-up edges fitted to tops using 45° mitred joints to form 90° corners. Distance between built-up edges and floor level is approx. 645mm.

Finish options:

85mm high 30mm thick MFC built-up edges fitted to tops using 45° mitred joints to form 90° corners. Distance between built-up edges and floor level is approx. 645mm.

MFC CUBED LEGS

Cubed legs made of four 30mm easy to clean scratch-resistant anti-reflective melamine faced chipboard (MFC) panels finished with 2mm matching Abs impact resistant edges. The four panels are linked together using 45° mitred joints to form 90° corners

Panel density: 670/730 kgs per cubic meter

Finish options:

METAL LOOP LEG FRAME

Legs made from epoxy powder coated or chromed pentagon-shaped steel tube.

Finish options:

CABLE FLAP AND CABLE TRAY

Aluminium hinged flap with integral open ended cable tray under fabricated from zinc plated steel.

TABLES WITH MFC CUBED LEGS

0-20mm steel manually adjustable levelling feet with round Abs molded scratch-resistant base. 25mm diameter.

MATERIALS AND RECYCLABILITY

Panels used on T45 range are exclusively 100% made by recycled wood and respect low formaldehyde emission (CATAS certification Quality Award CARB). Resins used on panels and melamine paper are SVHC substances free (reported on ECHA list update to 12/01/2017)

DESK WITH METAL FRAME

	POST-CONSUMER RECYCLABLE
 Wood	100%
 Plastic	100%
 Metal	100%
 Mixed	If disposed of in a specialised facilities

STANDARDS

T45 range has passed the following tests, attested by **CATAS** analysis laboratory in San Giovanni al Natisone (UD).

- Office work tables: safety requirements EN 527-2:2016+A1:2019 clause 4.1 - 4.2
- Office work tables: information for use EN 527-2:2016+A1:2019, clause 6
- Tables and desks dimensions EN 527-1:2011
- Horizontal static load test EN 1730:2012, clause 6.2
- Vertical static load test EN 1730:2012, clause 6.3
- Horizontal fatigue test EN 1730:2012, clause 6.4.2
- Stiffness of the structure EN 1730:2012, clause 6.4.3
- Vertical fatigue test EN 1730:2012, clause 6.5
- Vertical impact test EN 1730:2012, clause 6.6
- Deflection of table tops EN 1730:2012, clause 6.7
- Drop test EN 1730:2012, clause 6.9
- Stability under vertical load EN 1730:2012, clause 7.2

CERTIFICATES

Constantly receptive to market requirements, Quadrifoglio Sistemi d'Arredo pay special attention on quality and safety contents in order to provide high products and services. The Company has reached certifications UNI EN ISO 9001/2015, UNI EN ISO 14001/2015 and UNI EN ISO 45001/2018 to confirm his policy. Our products are certified and ensured by FSC™ and ECOLOGICAL PANEL.

GREEN ENERGY

The Company had installed the photovoltaic system with 4.500 solar panels in a 7.350 m² surface that covers almost entirely the factory. The photovoltaic is able to produce 1Mw of a quiet green energy, that does not harm the environment and is waste-free. With his high production capacity the photovoltaic allows us to reduce emissions in the atmosphere of all those polluting substances and to those that contribute to the greenhouse effects. Consequently, such measures make us save every year 180 tonne of petrol oil, 440 tonne of CO₂, 514kg of sulphur dioxide, 448 kg of nitrogen oxide and 23kg of dust.

TRANSPORT

Packaging is reduced in order to decrease volumes. Goods collections are responsibly managed and organised with the aim of optimise transports, reducing atmosphere emissions.
