How to use our price list

PRICE BANDS: At the start of each product range you'll find a grey *Materials* box outlining the available finishes, and the price bands they fall into. Most product ranges are split into two or more price groups marked *G1*, *G2*, etc. You'll find a short breakdown of each price group in a grey box at the start of each section.

INTRODUCTION

Experience the difference **Intelligent Workspaces**

We are a refreshing and innovative office furniture company based in Norwich and covering all of East Anglia, the Midlands and Home Counties. We are a cheerful and passionate team whose main aim is to create a healthy, happy and affordable working environment for our customers with the minimum fuss.

Our mission is to make your life as easy as possible, both in designing your workspace and choosing your furniture and enjoying the results afterwards.

narbutas

Narbutas design and manufacture modern, durable and functional furniture from their 36,600m² factory headquarters in Lithuania.

Their team of over 700 staff perform woodworks, engineer and paint metal constructions and machine fabric to produce upholstered furniture components.

We provide initial designs and concepts, detailed quotations and plans, an easy ordering process, order confirmations to avoid mistakes and finally, swift delivery and installation leaving your new workspace clean, tidy and ready to enjoy.

Did we say finally? Actually we never finish supporting you - we are there as long as you need us. Most of our customers have used us for many years and know they can always count on our helpful support - try it for yourself!

formetiq®

The innovative range of contemporary furniture is designed to efficiently enable modern working environment and practice.

Everything Formetiq® create aligns with their three core beliefs: it must look beautiful (form), work well for you (function) and be made in the most resource-effective manner (intelligent design). Redefine work as a place that feels right. Choosing furniture for the workplace should be a pleasure not a chore. Days spent in a well-designed workspace will be a pleasure too and an improved working environment invariably brings increased productivity.

MP METALICON®

The ever growing range of ergonomic office furniture accessories.

Intelligently designed by their team of experts, the Metalicon® range was launched back in 2013 in response to a growing need for robust but refined accessories to support the office furniture market. They now supply our patented Metalicon® products to customers worldwide.

The Metalicon range includes pole and gas-lift monitor arms, CPU holders, sit/stand desk mats, vertical cable managers and power modules.

Reassuring quality

As well as being fantastic value for money all Narbutas, Formetiq® and Metalicon® products conform to relevant European or British manufacturing standards.

Guaranteed results

We offer a minimum 5 year guarantee on all our non-electrical products, including sit/stand desks, and 1 year guarantee on all our electrical products.

Looking after our planet

All our timber products are Rainforest Alliance, FSC or similarly accredited.

Since 2018 Metalicon have been focused on eliminating plastic from their product packaging. The majority of Metalicon® packaging is already made using recycled paper-based materials which can also be recycled again and their aim is to have all their packaging completely plastic free by 2023. Look out for the Ocean Friendly logo on Metalicon® product packaging.

OUR SERVICES

Workspace Consultancy

Growing numbers of businesses are investing significant resources into space planning and workspace design. An intelligent workspace produces many positive results.

Successful space planning is born from an acute understanding of individual client requirements, not only in the present, but also in the future. That's why every single project brief is subjected to our tried and tested methods:

- Site survey
- Office space planning
- Method statement and programme of works

This fact-finding process gives the iQ Workspace team the tools needed to excite, inspire and impress our clients with a proposal that is sympathetic to the boundaries of the building but provides the needed injection of creativity and positivity craved by so many when embarking on a new office fit out.

Workspace Design

Furnishing a workspace or office is a big decision for any business as it carries with it not only financial investment, but often a change in direction in terms of aesthetics and environment.

Get it right, and your workforce becomes engaged, enthused and loyal. Get it wrong, and the disruption could prove costly. That's why we've developed a proven, structured approach to all our workspace design projects

Workspace Installation

At the time of installation, the team reviews all on-site project specifics including health and safety.

They'll locate unloading and staging areas and established the most efficient route to site. Our products are shipped and installed in a pre-planned sequence, allowing external contractors to complete their tasks alongside out installation teams.

Our workspace installation service includes:

- Site survey
- Office space planning
- Method statement and programme of works
- Clean down of workspace post installation
- Removal of packaging materials for recycling
- Full site check with customer ready for sign-off

Desks

Bench desking

Cantilever desks

Panel desks

Standing desks

SYSTM desking, screens and storage

SYSTM NEW

Modular bench desking + storage + screens

TECHNICAL INFO

SYSTM is a completely integrated office furniture range with matching desking, tables, storage and planters. The major thing that sets it apart is the level of detail our designers have gone to.

Every element has every choice of size and finish you need and absolutely everything combines seamlessly. SYSTM is astonishingly easy to build or dismantle and it looks right every time.

SYSTM offers 12 MFC finish options in one price band across the range. Plywood effect edging is available

on coloured desktops and contrasting edge banding available across all finishes, all at no extra cost.

Cable management trays hook onto the back-to-back bench desk frames and hinge down for easy access making installation quicker and reconfiguration simpler.

Desk height storage is designed to fit every desk depth with mix and match finishes on carcass and doors.

SYSTM double-sided fabric screens, upholstered by our in-house team are available to fit every desktop width and depth.

Materials

Formetiq® MFC desktops

- White (KW)
- Black (BC)
- Stone Grey (SG)
- Graphite Grey (GG)
- Clay Grey (CG)
- Anthracite Grey (GA)
- Urban Oak (AO)

Alto

Two & three stage standing desks & benches

TECHNICAL INFO

Our Alto standing desk range makes ergonomic height adjustable working an affordable prospect.

Alto 1 offers an economical standing solution to your workspace with a quiet motor providing smooth height adjustment and a simple, easy-to-use control panel.

Alto 2 provides all you need in a height adjustable workstation, packed full of features including powerful twin motors for fast height adjustment and an advanced anti-collision system with adjustable sensitivity.

Easily save your most comfortable working positions with 3 height memory presets, the handy reminder function will notify you when it's time to switch position! Multiple desktop finishes are available to match the Alto desks to your existing desking.

The Alto 2 back-to-back bench desk includes all the premium features of the Alto 2 single desk with the addition of optional universal screen brackets and an optional adjustable central cable tray.

Materials

NEW

Formetiq® MFC desktops

- White (KW)
- Black (BC)
- Stone Grey (SG)
- Graphite Grey (GG)
- Clay Grey (CG)
- Anthracite Grey (GA)
- Urban Oak (AO)
- Sand Oak (SO)
- Craft Oak (CO)
- Walnut (SW)
- Maple (MP)
- Concrete (CF)
- White with ply edge (KWP)
- Black with ply edge (BCP)
- Stone Grey with ply edge (SGP)
- Graphite Grey with ply edge (GGP)
- Clay Grey with ply edge (CGP)
- Anthracite Grey with ply edge (GAP)

We can add any edge banding finish to desktops, just ask for more information.

Frame Metal

- Black (BK)
- White (WH)
- Grey (SV) - Alto 1 only

We can add any edge banding finish to desktops, just ask for more information.

Nova

Bench desking system

TECHNICAL INFO

There's beauty in simplicity, and Nova combines clean and minimal aesthetics with great functionality.

The Nova shared leg system keeps costs to a minimum. Metal-to-metal construction and reduces assembly time with just one tool required.

Choose from 3 leg frame options: goalpost (U), angled (A) and loop (O) as well as 3 types of desktop: straight back, scoop back or with an integrated cable flap.

Straight leg desks are available with a sliding desktop option offering up to 140mm of movement and allowing easy access to cable management beneath the desk.

The Nova range also offers a manual height adjustable desk frame option with a height range of 620-850 mm.

Nova desks are available in any different desktop finishes and 4 metal leg/frame finishes.

Materials

- G1: Band A MFC**
- Whitened Oak (PA06)
 - Amber Oak (PA07)
 - White (PA01)
 - White with Amber Oak edge (PA01PA07)
 - Pearl Grey (PA02)
 - Dark Grey (PA03)
- G2: Band B MFC**
- Sand Ash (PA09)
 - Dark Walnut (PA10)
 - Grey Wood (PA08)
 - Cubanit Grey (PA04)
 - Black (PA05)
- Frame Metal**
- Black (MA01)
 - White (MA03)
 - Grey (MA02)
 - Dark Grey (MA04)

Nova Wood

Bench desking system

TECHNICAL INFO

The Nova Wooden leg desk range features solid wooden legs that are lacquered and stained in a natural ash finish with metal inserts for assembly and hidden height levelling feet.

The desks are easy to install with metal-to-metal fixings and require only one tool for assembly. The high pressure laminate desktop option features a tapered underside edge portraying a sharp, delicate edge which is softened by curved corners and inset wooden legs in a natural ash finish.

HPL Fenix
The HPL Fenix finish option is a surface treated with next-generation resins, hardened and fixed through a nanotechnology process giving the surface unique qualities including a super matt finish with low-light reflectivity, an ultra-resistant soft touch surface which is resistant to scratches and abrasion. Any micro scratches can be removed with heating.

Materials

- Band A MFC**
Whitened Oak (PA06)
Amber Oak (PA07)
White (PA01)
White with Amber Oak edge (PA01PA07)
Pearl Grey (PA02)
Dark Grey (PA03)

- Band B MFC**
Sand Ash (PA09)
Dark Walnut (PA10)
Grey Wood (PA08)
Cubanit Grey (PA04)
Black (PA05)

- HPL / Fenix**
White top, black edge (H70B01)
White top, white edge (H70B02)
Black top, black edge (H16B01)
Grey top, grey edge (H17B03)

- Solid wood legs**
Stained Ash (NB01)
Ash stained Black (NB02)

- Frame Metal**
Dark Grey (MA04) - MFC desks only
Black (MA01)
Grey (MA02) - MFC desks only
White (MA03)

Round

Bench desking & storage system

TECHNICAL INFO

The new Round desking system promises a win-win situation in organising workplaces in large open plan offices.

Round desk system allows you to effectively use the office space and to easily create comfortable workplaces which can be either open or which can offer greater privacy to fit your team's needs. This system offers everything you need to create efficiently designed workplaces which boost employee productivity and help them succeed in pursuing their goals.

Supplementary units are available in rectangular only. For rounded single row benches you must start with a 2-desk bench. For rounded back-to-back benches with more than 2 desks you must start with a 4-desk bench.

Materials

- Band A MFC**
Whitened Oak (PA06)
Amber Oak (PA07)
White (PA01)
Dark Grey (PA03)
Pearl Grey (PA02)

Air

MFC desks

TECHNICAL INFO

An attractive feature of Air desks is the thin profile metal legs which convey a sense of lightness whilst maintaining stability and durability,

The minimalist form combines different textures and colours and is characterised by progressive structural design that creates a unique style.

Materials

Band A MFC

- Whitened Oak (PA06)
- Amber Oak (PA07)
- White (PA01)
- Dark Grey (PA03)
- Pearl Grey (PA02)

Dark Grey (PA03) is not available on desktops

Band B MFC

- Sand Ash (PA09)
- Dark Walnut (PA10)
- Grey Wood (PA08)
- Cubanit Grey (PA04)
- Black (PA05)

Frame Metal

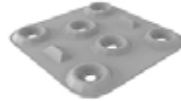

- Black (MA01)
- Grey (MA02)
- White (MA03)

Optima

MFC cantilever & panel leg desks

TECHNICAL INFO

OPTIMA C

A superb range of twin post cantilever leg desking.

This attractive range includes almost 30 different desk shapes and sizes to fit every situation. Quality 25mm MFC tops and modesty panels in a choice of 8 finishes.

Choose from white, grey or black legs and optional white or grey cable management leg inserts. The smart triple compartment vertical cable trunks simply push into the desk leg. We recommend use with modesty fix cable trays.

OPTIMA PLUS

A versatile range of well priced, traditionally styled panel leg office furniture.

25mm work tops with 2mm edging, solid 25mm leg and modesty panels with 8 MFC finishes to choose from.

Don't miss the complete range of matching Optima pedestals and storage (page 170) and meeting tables (page 130).

Motion

Two & three stage standing bench desks

TECHNICAL INFO

The Motion system offers electric height adjustable bench desks designed for a flexible arrangement of workstations and a more dynamic working environment, available as single desks or bench desks.

You can adjust the height of the desk with a touch of a button or via Bluetooth remote control from your smartphone. The control panel also offers a reminder to alternate between sitting and standing positions and includes an anti-collision feature, the 3 level feet sensor will automatically stop the desk's movement if it senses an obstacle in its path.

Modus acoustic desk screens are double-sided allowing you to choose a combination of two different colours - an easy way to create your own individual workspace whilst still relating to your corporate office interior style

These desk screens can be combined with Modus or Modus Light acoustic panels which can be arranged to ensure both visual and acoustic comfort. Height adjustable or fixed height Modus acoustic desk screens offer both privacy and sound absorption sheltering users from general office noise.

Domino

Reception desk system

TECHNICAL INFO

Domino is a unique piece of furniture that will enable you to create workplace solutions tailored to your needs.

A large choice of fabrics, colours and sizes offers an endless range of combinations. The Domino base is available in 9 different options and acts as a base for matching different colours and textures. 2 available thicknesses of exterior panels (18mm and 31mm) adds character to the pattern being created.

Panels are available in a choice of melamine, natural veneer, or upholstered in a range of fabrics.

Materials

Band A MFC

- Whitened Oak (PA06)
- Amber Oak (PA07)
- White (PA01)
- Pearl Grey (PA02)
- Dark Grey (PA03)

Band B MFC

- Sand Ash (PA09)
- Dark Walnut (PA10)
- Grey Wood (PA08)
- Cubanit Grey (PA04)
- Black (PA05)

Band A Veneer

- Oak (NA01)
- Ash stained Black (NC01)
- Walnut (NA03)
- Ash (NA04)

Band B Veneer

- Ash stained Dark Brown (NC02)
- Walnut stained Grey (NC03)

Ice

Reception desk

TECHNICAL INFO

Minimalistic design with subtle combinations

Depending on your vision for the interior, choose between a cozy melamine, or a luxurious veneer finish. Various front and top combinations are also available.

Using the same finish on the top, base and front will create a solid and minimalistic reception unit, which will be as clean and smooth as ice!

Alternatively, introducing a different-coloured top or decorative inserts will allow you to subtly reveal the elegance of this reception unit.

The Ice reception unit fits either one or two workstations, a perfect match for sit/stand or fixed-height desks.

Materials

Band A MFC

- Whitened Oak (PA06)
- Amber Oak (PA07)
- White (PA01)
- Pearl Grey (PA02)

Nova

Reception desk panels

TECHNICAL INFO

Straight, clean, stylish lines mark this simple but effective range of reception fronts to complement the Nova bench desking range.

Contrasting Plexiglas® lines define and break up the panels giving a pleasing effect to large or small runs of panels. Simply choose your Nova desks from the desking section and add the panels from here to create your complete reception unit.

Executive

Executive desks

Executive storage

Arqus executive desk

Arqus

Executive furniture

TECHNICAL INFO

Arqus is a collection of executive furniture with a modern luxury feel consisting of desks, meeting tables, wardrobes and cabinets. Arqus executive furniture has a modern aesthetic that appeals for its simplicity and elegance.

The sleek, subtly rounded shapes and lines of Arqus are reflected in every part of the furniture – in the shape of the legs and the chamfers of the tabletop or cabinets. The collection uses the highest quality materials – natural veneer and leather, symbolising luxury and refinement.

Choose a desk with a regular rectangular desktop or an asymmetric one, where the desktop tapers to the left or right. A fixed pedestal to the left or right of the desk with a height-adjustable shelf and drawers frees up desk space.

Thoughtful power solutions will allow you to have a comfortable place to work or hold meetings. Executive desks have built-in power socket blocks and meeting tables come with grommets and boxes for the power socket blocks of your choice.

Materials

G1: Veneer

- Walnut (NA03)

Move & Lead

Executive Desks / Storage

TECHNICAL INFO

Move & Lead is a minimalist, elegant and functional executive office furniture system for a modern leader. It helps to stay on the move and be active even at a work desk. Keep moving, stay healthy and productive.

The Move & Lead executive office furniture system combines the best in ergonomics and cutting-edge technology and is designed for active leaders. Height can be adjusted between 784mm and 1,378mm so the desk can be easily adapted to personal needs.

A distinct feature of Move & Lead executive furniture is its mature and minimalist design. Clean, elegant lines, smooth transitions and subtle combinations of materials are guaranteed to make a strong visual impact in any office. HPL Fenix finish, natural oak, ash or walnut veneer and polished stainless steel surfaces form a harmonious whole and create a sense of subtle luxury.

Motion Executive

Executive desks / storage

TECHNICAL INFO

Motion Executive is an electric sit-stand desk system, a combination of modern elegance and thoughtful functionality.

Panel legs hide the space under the desk giving more privacy. The feeling of elegance and sophistication is reinforced by the large desktop, designed for comfort.

Choose from 2 models: veneer looks elegant and is designed for those who appreciate a natural look. The top has a subtly chamfered edge, while side panels wrap the desk making it appear more united and stylish.

The MFC finish has no side panel and looks more simple and modest with ABS edging.

Create a desk to suit your interior with 38 finish combinations. The insert of the leg can be black or grey HPL Fenix or white HPL. For an MFC combination, choose from 8 finishes for the top, while the leg insert can be white, black or pearl grey. Additionally, you can order a modesty panel, matching the top.

Materials

- Band A MFC**
 - Whitened Oak (PA06)
 - Amber Oak (PA07)

SYSTM meeting table

SYSTM NEW

Meeting tables

TECHNICAL INFO

SYSTM is a completely integrated office furniture range with matching desking, tables, storage and planters. The major thing that sets it apart is the level of detail our designers have gone to.

Every element has every choice of size and finish you need and absolutely everything combines seamlessly. SYSTM is astonishingly easy to build or dismantle and it looks right every time.

SYSTM offers 12 MFC finish options in one price band across the range. Plywood effect edging is available

on coloured tabletops and contrasting edge banding available across all finishes, all at no extra cost.

With a large choice of table widths and matching extensions SYSTM offers meeting tables of almost any size for any space.

Cable management trays hook onto the D1250, D1450 and D1650 table frames and hinge down for easy access making installation quicker and reconfiguration simpler.

Materials

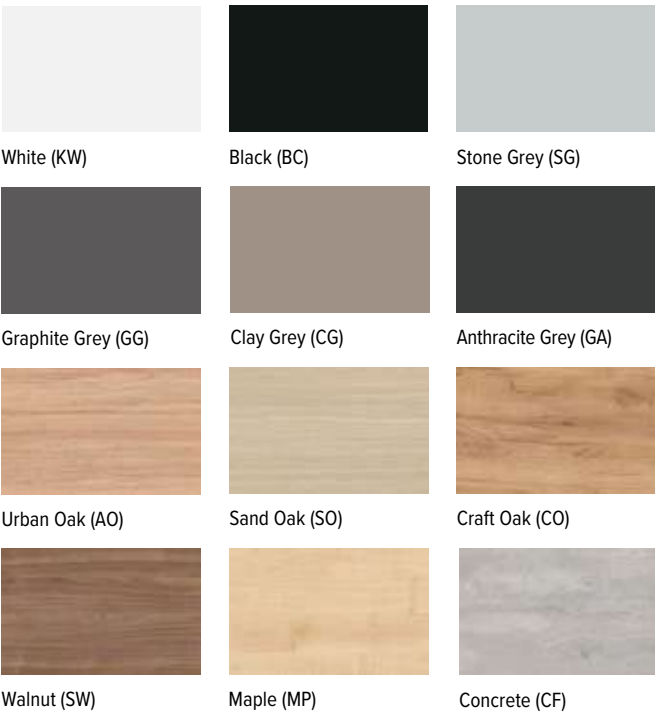

Formetiq® MFC tabletops

- White (KW)
- Black (BC)
- Stone Grey (SG)
- Graphite Grey (GG)
- Clay Grey (CG)
- Anthracite Grey (GA)
- Urban Oak (AO)
- Sand Oak (SO)
- Craft Oak (CO)
- Walnut (SW)
- Maple (MP)
- Concrete (CF)
- White with ply edge (KWP)
- Black with ply edge (BCP)
- Stone Grey with ply edge (SGP)
- Graphite Grey with ply edge (GGP)
- Clay Grey with ply egde (CGP)
- Anthracite Grey with ply edge (GAP)

We can add any edge banding finish to desktops, just ask for more information.

Frame Metal

- Black (BK)
- White (WH)
- Grey (SV)

Opto

Flexible conference tables

TECHNICAL INFO

Meeting, greeting, training. A flexible modular system of all shapes and sizes.

Whether it's a meeting point on the end of a desk or a complete flexible training room requirement we've got what you need. Individual tables for exams or training - no problem; a conference for 20 - just push the tables together, add some half round ends for an instant result.

Securely connect individual tables with our table connectors, allowing for multiple configurations to suit any scenario.

Our flip-top table frames incorporate an innovative neutrally pivoted release mechanism with integrated adjustable dampening. This results in table tops that are easy to operate and perfectly balanced to minimise premature opening and closing with a controlled 'flipping' action.

Materials

Formetiq® MFC tabletops

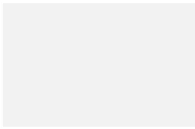

- White (KW)
- Black (BC)
- Stone Grey (SG)
- Graphite Grey (GG)
- Clay Grey (CG)
- Anthracite Grey (GA)
- Urban Oak (AO)
- Sand Oak (SO)
- Craft Oak (CO)
- Walnut (SW)
- Maple (MP)
- Concrete (CF)
- White with ply edge (KWP)
- Black with ply edge (BCP)
- Stone Grey with ply edge (SGP)
- Graphite Grey with ply edge (GGP)
- Clay Grey with ply egde (CGP)
- Anthracite Grey with ply edge (GAP)

We can add any edge banding finish to desktops, just ask for more information.

Nova

MFC meeting tables

TECHNICAL INFO

Nova meeting tables are part of the broad-ranging Nova office furniture system.

Intelligently designed table inserts add a functional but playful element which can be a contrasting colour to the desktop and will efficiently conceal cables and sockets.

Nova Wood

MFC / HPL meeting tables

TECHNICAL INFO

Nova Wood is a desking system that adds a delicate sense of luxury to your office and brings you closer to nature and a home atmosphere!

Elegant leg design is the key feature of this desking system and every table is unique due to the solid ash wood legs with wide growth rings that create a distinctive pattern Stained and lacquered wood reveals the pattern even more (natural wood tends to change its colour over time).

The high pressure laminate desktop option features a tapered underside edge portraying a sharp, delicate edge which is softened by curved corners and inset wooden legs in a natural ash finish.

The HPL Fenix finish option is a surface treated with next-generation resins, hardened and fixed through a nanotechnology process giving the surface unique qualities including a super matt finish with low-light reflectivity, an ultra-resistant soft touch surface which is resistant to scratches and abrasion. Any micro scratches can be removed with heating.

Optima tables

MFC meeting tables

TECHNICAL INFO

Smart and professional, Optima tables are a touch of class on a modest budget.

Optima is an optimal office furniture line which allows you to create a comfortable, functional and well-organized work environment using minimum components. The system includes panel end legs with levelling feet which provides stability on uneven flooring.

All come with 25mm tops, 2mm lippings, a sturdy timber panel base or pole legs with a metal under frame.

T-Easy

T-leg meeting tables

TECHNICAL INFO

An appealing solution for meeting spaces.

T-Easy meeting tables boasting a neutral aesthetic design are ideal for a team of six or eight people. Desks featuring durable construction and T-shaped legs have a clear advantage over other types of desks: they provide a more generous space under and around the desk. The desktops have openings for effective cable and wire management.

T-Easy meeting tables make a great match with fixed height desks from the same system and Easy electric height adjustable desks. This way you will be able to easily integrate today's technology into your meeting areas as T-Easy meeting tables can be used alongside a Media conference wall.

Materials

Band A MFC

Column base meeting tables

TECHNICAL INFO

Possibly the most versatile range of conference tables on the market. Modular tops and bases make for endless size and shape possibilities, infinitely expandable and ideal for larger arrangements, making it easier to find the solution that best meets your needs.

Economic, very stable and durable, the round bases allow effective use of the entire table area and convenient communication with colleagues and partners. Standard base colours available are Black, Grey and White. Minimum order quantities may apply.

Materials

TECHNICAL INFO

Furniture that appears as if floating in thin air.

An exceptional feature of Air tables is the thin profile metal legs that convey a sense of lightness and at the same time ensure their durability and stability. Minimalist Air designs, thought through solutions, combinations of different textures and colours – all this provides more creative freedom for architects who design office spaces.

Air meeting tables feature a round tabletop designed for a team of six people or a rectangular tabletop ideal for eight people.

ZooZoo

Coffee tables with poufs

TECHNICAL INFO

ZooZoo coffee tables and poufs appeal not only for their modern and light design but also for their practicality, focused on the needs of the modern office. ZooZoo invites you to sit down comfortably, have a conversation and share ideas.

Ranging in height from 250 to 550 mm, regular coffee tables perfectly serve their purpose of temporarily holding small items and adding a touch of style to the interior.

Regular coffee tables are not comfortable for writing. The designer Annie Lee decided to solve this problem

by creating the 690mm high ZooZoo coffee table, a comfortable height for both relaxation and work meetings.

In the ZooZoo collection, you will not only find round and elliptical coffee tables but also poufs that perfectly complement them. The compact poufs can be hidden under the coffee table with a light push and pulled out again to create a pleasant place to sit. This design solution makes efficient use of office space without cluttering. The poufs also have a niche where you can store small items or simply place your handbag to keep it out of the way during a conversation.

Media

Multimedia integration

TECHNICAL INFO

Media walls are a smart solution to integrate today's technology into your meeting areas, providing a simple way to mount a large screen and manage the power and cabling, especially in an open plan office with minimal wall space.

Media walls give you an easy way to show presentations and to participate in video conferences and meetings. The conference wall can be attached to various types of meeting tables or high tables (brackets included).

You can choose a Media wall with an Ø80mm cutout for power or cable management.

Materials

- Band A MFC**
Whitened Oak (PA06)
Amber Oak (PA07)
White (PA01)
Pearl Grey (PA02)
Dark Grey (PA03)
- Band B MFC**
Sand Ash (PA09)
Dark Walnut (PA10)
Grey Wood (PA08)
Cubanit Grey (PA04)
Black (PA05)
- Metal**
Black (MA01)
Grey (MA02)
White (MA03)

Compatibility

Media wall is not a free standing and must be fixed to a table (universal fittings included).

CMZ121 and CMZ123 are suitable only for following meeting tables:

- Nova D1000mm and D1200mm without cutouts (CNM120, BNA180, BNA200).
- T-Easy D1200mm (DZM202, DZM242).
- Nova Wood - D1000mm and D1200mm.

CMZ124 is suitable only for following high tables:

- Nova (CNM165, CNM180).
- Nova Wood (CNM12A, CNM146, CNM166, CNM18A, CNM129, CNM147, CNM167, CNM189).

Power sockets must be ordered as a separate product for CMZ123, CMZ124, CMZ190.

Parthos

Acoustic tables

TECHNICAL INFO

Parthos tables are characterised by a stylish, elegant design, with well-thought-out shapes that spark collaboration. The Parthos collection consists meeting tables, high tables and coffee tables.

The main design element is a sculptural cylindrical column, covered with PET felt, whose textural pattern of vertical lines further emphasises the allusion to the element of classical architecture.

Round power units with different types of sockets can be integrated into the one column meeting tables for

easy charging of devices. For two and three column meeting tables, you can also choose a rectangular metal table grommet for wire management which opens on both sides.

PET felt features acoustic properties; the porous surface absorbs sound, while the vertical cut-outs disperse some of the sound waves. We recommend combining these tables with the Parthos acoustic columns. They will not only ensure a better acoustic environment but will also create stylistically harmonious interiors for meeting, relaxation and other spaces.

Nova

MFC Pedestals + Cabinets + Lockers

TECHNICAL INFO

A complete range of system storage to complement the Nova bench desking range.

Cupboards, bookcases, credenzas, locker units. Open fronts, hinged doors, sliding doors, cupboards and other storage exactly designed to fit the desk ends and much, much more.

Nova storage is available in nine different MFC finishes as well as veneer options on some products.

Practical and functional high-capacity shelves and cupboards of different heights and widths can be easily combined in work environments to create various comfortable individual work areas.

Nova Line shelves, cupboards of different heights and widths are decorated with Plexiglas® inserts and handles and will perfectly match any of Narbutas office furniture systems.

Uni & Uni Plus

Modular storage system

TECHNICAL INFO

A choice of over 60 cupboard and bookcase combinations.

All storage units have 19mm carcasses and 25mm tops to complement desking and finished backs for use as room dividers. Cupboards include shelves and locks. All units are supplied without a base, this must be chosen from the options available.

A universal storage system created for easy document archiving, this exclusively wide range of cupboards allows you to choose from shelves of different heights and widths, paired with different types of possible cupboard doors. Backs of the cupboards may be covered with a whiteboard or with fabric for sound absorption.

You can choose conventional shelves, shelves with dividers and fixed or pull-out filing cradles. All accessories are suitable for UK and EU standards.

Materials

Band A MFC

- Whitened Oak (PA06)
- Amber Oak (PA07)
- White (PA01)
- Dark Grey (PA03)
- Pearl Grey (PA02)

Choice

Modular storage system

TECHNICAL INFO

A modular storage system for modern workspaces.

Endless choices of sizes, door types, shelf options, bases and more make the Choice storage range stand out from the crowd. Choice storage units can be easily combined into multiple arrangements, allowing flexible storage solutions for any area of your workspace.

You can also combine different textures: fabric, melamine and natural veneer. Choose from a wide range of fabrics to create desired colour combinations that will blend nicely into your office.

You can use acoustic doors along with other acoustic solutions (panels, partitions) to create a better acoustic comfort in your office.

Metal baseboard or metal legs will be perfect for those who want to create a minimalist office style. Legs made of natural ash wood will bring you closer to nature in a very subtle manner. Castors will make it easy to rearrange office furniture.

Materials

Band A MFC
Whitened Oak (PA06)
Amber Oak (PA07)
White (PA01)
Dark Grey (PA03)
Pearl Grey (PA02)

Band B MFC
Sand Ash (PA09)
Dark Walnut (PA10)
Grey Wood (PA08)
Cubanit Grey (PA04)
Black (PA05)

Metal
Dark Grey (MA04)
Black (MA01)
Grey (MA02)
White (MA03)

Band A Veneer
Oak (NA01)
Walnut (NA03)
Ash (NA04)
Ash stained Black (NC01)

Band B Veneer
Ash stained Dark Brown (NC02)
Walnut stained Grey (NC03)

Choice Lockers

TECHNICAL INFO

Choice modular MFC lockers are a creative and versatile solution for secure personal storage.

You can personalize your locker and create a variety of combinations or simply match the door colour with locker carcass. Create colourful combinations by mixing and matching carcass and door finishes including new perforated metal doors in 7 different colours.

Lockers are supplied with cylinder key locks as standard; optional combination or digital locks, including hidden RFID locks are available, as well as two different door

types – fully enclosed or with a handy cut-out for mail. You can add shelves, coat hooks and other accessories to the inside.

Lockers cater to the needs of employees who spend majority of their time working outside the office or have flexible work hours as well as the resident workers and office visitors. With Choice you can now include fabric seating and wardrobe niches in your locker storage combinations to add additional flexible storage space or a cosy spot for a quick break!

Locks

AP: Cylinder lock with retention for personal use

BP: Combination lock for personal use
BS: Combination lock for shared use

CS: Electronic keypad lock for shared use

FS: Electronic hidden RFID lock for shared or personal use (works with all MIFARE® Classic (13,56 MHz) cards).

ES: Electronic touchscreen RFID/keypad lock for shared or personal use (works with all MIFARE® Classic cards or MIFARE® Desfire Evo II cards).

Materials

Band A MFC
Whitened Oak (PA06)
Amber Oak (PA07)
White (PA01)
Dark Grey (PA03)
Pearl Grey (PA02)

Band B MFC
Sand Ash (PA09)
Dark Walnut (PA10)
Grey Wood (PA08)
Cubanite Grey (PA04)
Black (PA05)

Veneer
Oak (NA01)

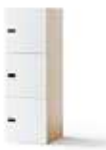

HPL
Grey (HA01)
Cappuccino (HA02)
Light Yellow (HA03)
Mint (HA04)
White (HA19)

Metal
Black (MA01)
Grey (MA02)
White (MA03)
Dark Grey (MA04)
Deep Bronze (MA05)
Dusty Rose (MA06)
Avacado Green (MA07)

Combus

Modular zoning shelving

TECHNICAL INFO

Combus is a modular shelving system designed for shaping and dividing spaces, different types of shelving, are designed for open space, against a wall or on top of Choice cabinets. Combus is functional, has an easily adaptable design and is environmentally friendly.

Choose from closed or open shelving, with boxes and drawers. Use a book-end as an additional accessory for orderly storage of books. With the planter boxes, you can easily add plants to create a biophilic office environment. The Combus system includes the possibility of attaching a screen, making it a great

solution for quick discussions. The cable routing from the screen to the floor is well thought out, with a metal duct leading from the screen to a cut-out at the bottom of the frame, then through the cut-out and under the plinth to an electrical socket.

Subtle design elements help you create character including a PET felt storage basket, metal planter box and a metal book-end.

Combine different finishes, such as metal, melamine and PET felt, to create unique combinations.

Materials

Band A MFC

- Whitened Oak (PA06)
- Amber Oak (PA07)
- White (PA01)
- Pearl Grey (PA02)
- Dark Grey (PA03)

Band B MFC

- Sand Ash (PA09)
- Dark Walnut (PA10)
- Grey Wood (PA08)
- Cubanit Grey (PA04)
- Black (PA05)

Band A Veneer

- Oak (NA01)
- Walnut (NA03)
- Ash (NA04)
- Ash stained Black (NC01)

Band B Veneer

- Ash stained Dark Brown (NC02)
- Walnut stained Grey (NC03)

Metal

- Black (MA01)
- Grey (MA02)
- White (MA03)
- Dark Grey (MA04)
- Deep Bronze (MA05)
- Dusty Rose (MA06)
- Avacado Green (MA07)

PET Felt* ♻️

- Grey (BA01)
- Sand (BA02)
- Green (BA03)
- Dark Blue (BA04)
- Blue (BA05)
- Coral Pink (BA10)
- Chestnut (BA07)
- Dark Pink (BA06)
- Dark Grey (BA08)
- Lime (BA09)
- Light Grey (BA12)
- Light Beige (BA11)

♻️ Sustainable / natural

* See PET felt colour swatches for details

TECHNICAL INFO

Our wide range of fabric screens can enhance desks in any workspace, adding colour, texture and necessary sound absorption, all manufactured in the UK.

SYSTM fabric screens work seamlessly with our modular bench desking but can be added to many other bench desking ranges too. Screens align perfectly between SYSTM bench desking and Alto height adjustable back-to-back bench desks.

Double-sided screens give greater design opportunities combined with a huge choice of fabrics from popular manufacturers.

All screens come with required brackets to mount to desk frames or tops, ask our team for details.

Materials

Band A Screen Fabrics

- Camira Cara E
- Camira Carlow E
- Camira Era 170

Band B Screen Fabrics

- Camira Era E
- Camira Gravity
- Camira Lucia E
- Camira Sonus
- Gabriel Hush E
- Gabriel Tonal 170
- Gabriel Just 170
- Gabriel Mica 170

Band C Screen Fabrics

- Camira Blazer Lite E
- Camira Lucia CS E
- Camira Quest E
- Camira RePlay E
- Camira Urban E
- Camira X2 E
- Gabriel Cura Screen E
- Gabriel Event Screen+ E
- Gabriel Renewed Loop Screen E
- Gabriel Step Screen E
- Gabriel Step Melange Screen E
- Gabriel Twist E
- Gabriel Twist Melange E

Band D Screen Fabrics

- Camira Blazer E
- Camira Main Line Flax E
- Camira Main Line Twist
- Camira Nexus E
- Camira Penta
- Camira Synergy 170 E
- Gabriel Atlantic Screen E

Aluminium frame

- Black (BK)*
- White (WH)
- Grey (SV)

Plastic trim

- Black (BK)
- White (WH)
- Grey (SV)

Sustainable / natural

E Available on edged screens (FR / PV / AP / AL)

* Black (BK) aluminium not available on screens with plastic top trim (AP).

* Not every fabric in Blazer Lite range is available on stitched edge screens - please see [Fabrics List](#) for details

Round PET

Acoustic desk screens

TECHNICAL INFO

Part of the Round desking and storage system these vibrant screens are suitable for Round single and bench desks, but designed to work with both fixed and sliding desktops.

Available in different widths and heights and various colours and patterns (with rounded lines or honeycomb motif), they are also lightweight, which lowers the desk load and makes them easy to handle. The metal bracket design makes them quick and easy to assemble.

Round acoustic desk screens are made from PET felt which although it feels like natural wool is actually made from 50% recycled plastic, a sustainable material which possesses excellent sound absorption properties.

PET felt is soft and light, yet strong and durable. It meets applicable fire safety requirements and can be easily cleaned and disinfected.

Materials

PET Felt*

- Grey (BA01)
- Sand (BA02)
- Green (BA03)
- Dark Blue (BA04)
- Blue (BA05)

Compatibility

Nova screens are suitable for the following Narbutas desk systems:

- Motion (except DNK070, DNK071)
- Round
- Nova U, Nova A, Nova O, Nova H (except DNK070, DNK071).
- Nova Wood
For desks with HPL top only spine screens for 2-desk and 4-desk benches are compatible (DNK142, DNK162, DNK182, DNK143, DNK163, DNK183).

Nova Plexiglas® screens are suitable for the following desk systems:

- Motion (except DNK074, DNK084)
- Round (except DNK074),
- Nova U, Nova A, Nova O, Nova H (except DNK074).
- Nova Wood
For desks with HPL top only spine screens for 2-desk and 4-desk benches are compatible (DNK151, DNK171, DNK189).

Nova Plexiglas® screens are suitable also as modesty panels under the desktop.

Height in brackets is screen height above the desktop

Top 530 & Desk 760

Rounded acoustic desktop screens

TECHNICAL INFO

Acoustic screens for stand alone height adjustable and back to back desks.

Our acoustic screens are filled with noise reducing material and covered in natural wool or polyester fabric. They deliver improved visual and audio protection, providing more privacy without isolating employees from each other, separating workspaces and improving your concentration.

Acoustic desk screens give you privacy at work and reduces noise from the surrounding environment. This helps to concentrate on your work, though does not separate employees and allows them to communicate easily. Also suitable for bench desks.

The acoustic screen system Desk 760 effectively shields you from the busy world, but also leaves an opportunity to communicate with other colleagues without boundaries. This is an excellent choice for those who want to distance themselves from distractions.

My Space

Fabric acoustic dividers / desking

TECHNICAL INFO

My Space absorbs noise and divides your office into personal workspaces.

You can choose from a mounted desktop or freestanding screen system, suitable for 720-780mm height desks. Components are quick and easy to connect and assemble.

Acoustic screens are filled with special acoustic sound-absorbing foam, certified sound absorption Class D, and can be upholstered with a fabric of your choice. Use a variety of colour combinations not only to create

separate spaces but also to arrange workstations in groups. This updated range now includes 120° brackets and trapezoidal desktops to greatly expand the desk arrangement possibilities.

Thanks to the modular construction, this acoustic furniture allows you to power up to 6 workplaces from a single power socket. In order to keep the working process as effective as possible, My Space is available with a 3 socket power unit that can be used for standard power supply, USB, or data connection in different configurations.

Acoustic Artwork

PET felt acoustic tiles, partitions + baffles

TECHNICAL INFO

Choose from three types of wall-mounted or ceiling-mounted acoustic products: partitions, clouds and tiles are all lightweight and versatile and help you to create acoustic comfort, creatively divide spaces and achieve a unique office interior.

Partly made of recycled plastic PET felt, acoustic products feel similar to wool to touch but are made from plastic using more than 50% recycled plastic, making them suitable for recycling.

This sustainable material possesses excellent sound absorption properties. The porous structure ensures efficient absorption of medium to high frequency noise despite the low thickness of product. PET felt is soft and light, yet strong and durable. It also has a required degree of fire resistance and meets applicable fire safety requirements. Due to the structure PET felt can be easily cleaned and disinfected.

Partitions come in a variety of patterns featuring circles, hexagons, grids, and a variety of wavy patterns.

Parthos

Acoustic columns

TECHNICAL INFO

Parthos stylish, mobile and sustainable acoustic columns are one of the solutions that can achieve the desired acoustic balance in different spaces. Best of all, they require no special fixings, thus giving you more freedom and flexibility.

Parthos ensures that high, medium and low frequency sounds are muffled: High-frequency sounds like phone calls, medium-frequency sounds like speech, and low-frequency sounds caused by heating, ventilation and air conditioning systems. The acoustic columns are filled with textile offcuts, with excellent sound-absorbing

properties. Columns are covered with PET felt, which is porous and enhances these properties. The choice of pattern also contributes to the improvement of acoustics by dispersing some of the sound waves.

Choose from three different heights – 800mm, 1200mm, and 1600mm with space for a plant pot hooks is an acoustic product with a distinctive design that can be easily integrated into meeting spaces. You can use hooks or with power and charge.

Modus & Modus Light

Acoustic sound absorption panels

TECHNICAL INFO

Modus acoustic panels offer a modern solution to improve the working environment by absorbing background noise, reducing reverberation and improving acoustics.

With a broad range of fabric colours on offer Modus panels add depth and interest to office interiors and can be used to create private working spaces. The system includes wall mounted panels, suspended ceiling panels, and vertically suspended double-sided panels.

The main purpose of acoustic panels is to reduce reverberation (echo) to the maximum extent possible and to absorb noise, in this way improving acoustic comfort. The panels contain a special patented and certified material designed to efficiently absorb sound. Modus acoustic panels offer class C sound absorption.

Workpods & Booths

Workpods

Meeting booths

Silent Room work + meeting pods

Silent Room

Acoustic workpods

TECHNICAL INFO

Silent Room is an oasis of quiet in a middle of a modern office. Thanks to this office solution, concentrating at work has never been easier as it enables employees to focus during phone conversations, video conferences or creative tasks without distracting others. Silent Room ensures indoor air quality as well as acoustic and visual comfort for employees.

Multilayered Silent Room wall structure, hermetic door and ceiling ensure sound insulation. The inner layer of the panels is made from high-class acoustic

material that eliminates echo and has excellent sound absorption properties. The upholstered exteriors block out noise effectively and create an acoustically-optimised working environment.

Getting in and out of the Silent Room is easy: a low doorstep and same level floor ensures that no caution is needed while stepping inside. Silent Room ensures a high level of comfort and allows for a wide range of freedom. It can be also easily adapted to a variety of activities, providing you with the freedom to create a personalised setting that suits your needs best.

You can be sure that you will be able to continue that important conversation or presentation even if your device runs out of battery power. For user convenience, Silent Room room is equipped with a power socket with USB-A and USB-C charge.

Thanks to its air ventilation and lighting solutions, Silent Room offers a productivity-boosting environment. The high-capacity ventilators ensure a proper air flow rate (500 m³/h) with a low operating noise.

The combination of the LED lamps creates a warm and homely atmosphere. A smart control unit selects an optimal ventilation and illumination level, and, if necessary, allows for individual adjustment. Once an employee leaves the Silent Room, intense ventilation is automatically activated to prepare the room for the next user.

This acoustic piece of furniture also helps with energy savings as it automatically dims the lights when no one is present in the room and even switches them off after some time.

Arcipelago Wood

Meeting booths

TECHNICAL INFO

Arcipelago Wood gives your employees a calm, focused ‘room within a room’ where they can conduct meetings, collaborate and reduce ambient noise to enhance focus.

A harmonious combination of oak veneered plywood and upholstered panels, Arcipelago Wood meeting booths transform workspaces with their use of natural elements and colours to create a positive effect on productivity and mood of employees.

Monza

Task chairs + Executive chair

TECHNICAL INFO

The Monza task chair range from Formetiq features a distinctive angled backrest design complete with height adjustable lumbar support. The mesh back option is available in a black white or grey frame with matching fixed height armrests mounted to the backrest.

The upholstered back option is available in black and also includes a hidden height adjustable lumbar support with subtle adjustment handles.

Monza offers an automatic synchronised mechanism with 4 locking positions and side tension adjustment. This mechanism includes a sliding seat option for seat depth adjustment.

Bases are available in black (with black gas lift) or polished aluminium (with chrome gas lift).

Further configurations are available beyond what is listed here, please get in touch for details.

Modena

Task chairs

TECHNICAL INFO

Our Modena mesh back task chair with its distinctive Y-shape backrest commands attention and is perfectly suited for any modern office environment.

You can fully customise Modena to create a comfortable experience tailored to any user with a choice of mesh or solid fabric backrest, fixed or sliding seat as well as adjustable headrest, choice of armrests and adjustable lumbar support.

The choice of frame colour, base finish and a host of fabric options allow you to finish this chair to match your personal style.

Can't see the configuration you're after? Please ask and we may be able to create it for you.

Modena task chairs are delivered pre-assembled, in some instances the seat may need sliding on to the gas lift and 5-star base.

Verona

Mesh back task chair

TECHNICAL INFO

Our comfortable Verona task chair with rounded backrest adds a soft aesthetic to any workspace.

The sliding seat option and a choice of armrests offer additional adaptability. Frames are available in white or black with a large choice of seat fabric options.

Can't see the configuration you're after? Please ask and we may be able to create it for you.

Verona task chairs are delivered pre-assembled, in some instances the seat may need sliding on to the gas lift and 5-star base.

Veneto

Task chair + Executive chair

TECHNICAL INFO

The Veneto task chair gives strength, comfort, style and performance at a value price. The executive chair features a synchronised mechanism, sliding black fabric seat and adjustable headrest. Both chairs offer an adjustable lumbar support and adjustable armrests.

Better still, Veneto task chairs are held in stock and available for express delivery - within 3-5 working days.

Veneto task chairs are delivered pre-assembled, in some instances the seat may need sliding on to the gas lift and 5-star base.

Huge choice of fabrics available!

Havana

NEW

Meeting chairs + Stools + Lounge chairs

TECHNICAL INFO

The Havana collection of lightweight seating features a modern and essential style. The ample and comfortable shell is available as a chair or tub armchair in seven vibrant colours.

Metal chair bases come in black, white or polished. Alternatively choose a wooden leg base in beech. Armchairs offer a wide choice of base options: coloured legs which can be mixed or matched with the shell, pyramid base with glides or castors in black or white, swivel base and 5-star base in 3 finishes, or the popular wooden leg base to match the chairs.

For additional comfort you can add a seat pad, upholstered by our in-house team in a fabric of your choice. All Havana seating is delivered pre-assembled.

Madrid

Meeting chairs

TECHNICAL INFO

Madrid offers simple modern style, comfort and reliability.

Choose from a solid supportive fabric backrest or mesh backrest offering flexibility and breathability. Stackable up to 4 chairs high, both the 4-leg or cantilever base options are available in black or chrome.

Madrid also offers a simple operator chair on a 5-star base with castors or 4-star swivel base.

Madrid chairs are delivered pre-assembled, in some instances the seat may need sliding on to the gas lift and base.

Palermo

Meeting chairs

TECHNICAL INFO

Ideal for breakout areas and canteens the Palermo chair's contemporary moulded shape and subtle muted colour choice bring vitality to any workspace.

Choose the standard form or with integrated armrests, both stackable up to 4 chairs high. The solid plastic finish makes them easy to keep clean.

Made entirely from environmentally sustainable polypropylene

Palermo chairs are manufactured from a mixture of recycled materials: approx. 50% regenerated industrial polymers and 50% recycled consumer waste such as packaging, textiles and toys. Once these materials are processed the resulting polypropylene is reinforced with glass fibre.

Seattle

Meeting chairs

TECHNICAL INFO

The Seattle conference chair with it's slim profile is a subtle addition to the modern workspace.

Stackable up to 4 high, the practical design makes it a flexible option for conferences, breakout spaces or canteens. The choice of tones add subtle colour with a plastic finish that makes this chair easy to sanitise.

Huge choice of fabrics available!

Oslo

Meeting chairs

TECHNICAL INFO

Strength, comfort, style and performance at a value price.

With its mesh back and rear chrome accent, stylish integrated armrests and lockable tilting mechanism, our Oslo chair offers value, aesthetics and features rarely ever seen at a similar price.

Working in tandem with its task chair equivalent, the Oslo cantilever base meeting chair offers the same sleek black outfit with integrated armrests and an all black metal cantilever base.

Opto chairs are delivered pre-assembled, in some instances the seat may need sliding on to the gas lift and 5-star base.

Wind

Task chairs + Meeting chairs

TECHNICAL INFO

The Wind task chair is now available in 3 different versions: choose the backrest with regular and knitted mesh for a lighter and more breathable solution or fabric if you prefer a softer feel - same design without sacrificing any of its ergonomic features.

Wind has an instantly recognizable X-shape transparent lumbar support uniquely designed to enhance the chair's visual appeal and serve an important function. Its height can be adjusted and it conforms to the user's lumbar shape due to the elastic properties of silicone, providing exceptional comfort.

The high swivel chair is an elegant solution to match with reception desks, high tables and sit-stand desks. The ring-shaped adjustable-height legrest allows users to adjust the chair to their height, maintain a correct seating position and avoid unpleasant back and neck pain. Castors provide extra safety and stability, locking in place as you sit. The meeting chair is a welcoming tool to equip collaborative workplaces and increase productivity. Backrest and armrests form an original monobloc structure the upholstered seat and 4 different bases meet any flexibility and aesthetic needs.

Materials

- Fabric***
- Berta
 - Camira Era
 - Fidivi Bondai
 - Audėjas Austea ♻️
 - Leather Look
 - Step/Step Melange
 - Camira Xtreme ♻️
 - Valencia C5
 - Gabriel Velito
 - Camira Synergy
 - Genuine Leather

- Mesh**
- Micro Mesh (FM)
 - Knitted Mesh (FK)
 - Runner Mesh (FR)

♻️ Sustainable / natural

North Cape

Executive chairs + Meeting chairs

TECHNICAL INFO

The North Cape chair family is composed of stylish, sophisticated and functional executive, task, meeting and meeting chairs. The range joins executive, working and meeting areas as well as reception and guest areas by uniting, delicate style.

Task chair tension adjustment

This function allows you to control how easily the chair tilts, depending on your weight and the force that is being used to lean back.

Task chair knee-tilt mechanism with centered axis

The task chair backrests and seats are joined together so when you lean back, the whole chair tilts. This mechanism allows you to lean back without lifting your feet from the ground, avoiding pressure on your calves. The tilting mechanism has 4 locking positions and returns automatically to the initial position.

More comfort

The addition of a seat cushion will make your North Cape chair even softer and can add an accent of colour.

Moon

Meeting chairs + Stools

TECHNICAL INFO

The simple but elegant Moon chair family make a positive addition to any workspace.

The comfortable task chair comes with a choice of 5-star polished aluminium or black plastic with fibreglass base.

Meeting chairs come with a choice of sled steel frame or 4 legs with or without an integrated armrest. All meeting chairs are suitable for a conference environment and can be easily stacked up to 5 chairs high.

The stools are ideal for raised breakout meeting tables or bars and are stackable up to 3 chairs high.

Wait

Conference chairs + Stools

TECHNICAL INFO

The Wait chair's flexible and lightweight design make it a popular choice for conference seating.

With a choice of steel sled frame stackable up to 10 high, or steel legs with or without castors stackable up to 6 high the Wait chair can be adapted to suit any aesthetic. An optional trolley makes reworking room layouts or moving chairs from room to room quick and easy.

Wait comes in a choice of 7 plastic colours and multiple fabric options for the backrest and seat including Velito, Synergy and Leather Look.

Chairs with a 4 leg steel base offer an integrated armrest option with a small folding table accessory also available, making them ideal for training workshops or lectures.

The stool option is ideal for breakout areas with high tables or dining areas with bars.

Twist & Sit

Meeting chairs + Lounge chairs + Stools

TECHNICAL INFO

Distinctive character and freedom of expression for your individual style.

With its visually striking Scandinavian design, Twist & Sit soft seating family is perfect for modern offices that exude a chic vibe and looks just as great in traditional workspaces. It has expressive character, provides improvisational freedom and comes in different style variations. You can select almost 80 different colour combinations for the upholstered part of the chair, contrasting colours will bring a sense of exclusivity to your Twist & Sit furniture.

It also comes in a variety of base options so there is no need to compromise on style. Consider your functional needs as well as the fabric or design to accommodate your preferences.

Metal bases have a modern look and are practical, whereas wooden bases give the space a homely feel and add a touch of elegance to the room. Both base options are available in dark and light colours to further add to the beauty of contrast.

The high wraparound backrest diminishes surrounding noise and offers a pleasant sense of comfort and protection.

Our wide choice of Twist & Sit Lounge chairs will accommodate the needs of a broad array of office settings. The soft seating family includes meeting and meeting chairs, lounge seating with high or low backrests as well as stools.

Twist & Sit lounge furniture is very versatile and suits not only usual office spaces but also special executive

spaces. It will add a special touch to both formal and informal meeting spaces, relaxation spots or creative areas. Mix and match different Twist & Sit models to create a desirable visual impact whether you want to convey a vibrant, edgy or playful feel or a subtle and calm one.

From airport lounges to office break rooms, from meeting rooms to co-working spaces, from bar counters to restaurant tables to living rooms, Twist & Sit is ideal for making any environment stand out.

Twist & Sit Soft

Lounge chairs + Sofas

TECHNICAL INFO

Twist & Sit Soft lounge seaters will help you add a homely feel to your office spaces and create a relaxing atmosphere. Available in different sizes and high-back or low-back versions the chairs allow you to transition smoothly from individual tasks to team meetings or chatting with colleagues.

Thanks to the recurrent design motives, the lounge chairs, armchairs and sofas fit together perfectly with the rest of the Twist & Sit range, help to create a uniform style and ensure a broader range of potential uses.

Well-rounded shapes and a distinctive connection between the lower and upper parts of the backrest create an expressive and instantly recognisable look. The immaculate appearance is achieved with stitching details extending smoothly throughout the surface of the seater from top to bottom.

Twist & Sit Soft seaters ensure a comfortable sitting experience thanks to the increased thickness of the PU padding. Besides highlighting the visually distinctive design of the seater, the design elements of the backrest also serve an important function as the

recessed lower part of the backrest subtly conforms to the natural contours of the spine, making the user feel comfortable. The side openings facilitate movement of air and come in handy when moving the seater from one place to another. A high-back seater will help you ensure a greater level of privacy serving as a barrier from background noise.

With its special stitching pattern and a wide range of fabric and leather look options, Twist & Sit Soft will enable you to choose the best single-colour or two-tone seaters for your office interior.

The lacquered solid ash wood is ideal for those who appreciate an authentic look, whereas the lacquered black stained option is perfect for those who opt for a unique style. Both options are easily compatible with different seater bases.

High-back seaters may come with optional accessories which can serve as additional statement pieces. The round wooden knob can be used for convenient hanging of personal items. The left-handed or right-handed swivel table provides a convenient surface for placing a laptop, a cup of coffee or a book.

Cannie

Stools

TECHNICAL INFO

Designed by the Italian studio S.I. Design, the Cannie collection of stools combines high-quality materials into a simple yet playful design that is easily adaptable to different interiors.

Available in three heights, Cannie may look like a simple stool, but it is guaranteed to offer high quality and comfort to its users. When sitting on a high or medium high stool, you can place your feet comfortably on the footrest.

Cannie stools are easy to disassemble, sort and recycle. The plastic seat and footrest are fully recyclable, as are

the solid wood legs. The varnish and paints are water-based and therefore have low emissions of volatile organic compounds.

Cannie stools of different heights can be used in office collaborative or meeting spaces, an office kitchen as well as in public spaces. Designers will enjoy combining these stools in different interiors and will be able to choose the colours of the legs, the footrest as well as the plastic of the hard part of the seat and upholstery of the seat. That is 1620 possible combinations in total!

Wobby

Pivoting task stool

TECHNICAL INFO

The Wobby pivoting stool offers a healthier sitting alternative and a solution for increased productivity at work. The modern and sleek design is an ideal accompaniment for a sit/stand desk.

The unique pivoting system means the seat can be tilted up to 8 degrees in all directions and rotated 360 degrees, together with the stable, non-skid base surface allowing it to be used as a support when standing to work.

The seat height is simple to adjust to your individual needs using the elegant brown leather strap.

Soft Rock

Modular soft seating

TECHNICAL INFO

Soft Rock low-frame lounge seaters, with a distinctive backrest, blend subtly into all kinds of lounge or workspaces and help to create a welcoming, safe and calm atmosphere for relaxation, informal meetings, collaboration or individual tasks. The synergy between rounded shapes and straight lines creates a unique, eye-catching yet simple design.

The flexible modular system consists of a series of lounge seaters available in different sizes and forms which can be easily combined or rearranged to make efficient use of the space. Choose from six main lounge

seaters available in different sizes, with straight or curved lines, and with or without a backrest.

Screens can be harmoniously integrated into the seating combinations and can change their purpose, like creating a more private area for individual work that requires concentration within an open space.

Soft Rock offers its users a convenient way of charging their mobile phones, laptops or other smart devices. The armrests of the Soft Rock furniture have in-built power sockets or fast charging USB ports.

Jazz Chill Out

Modular soft seating

TECHNICAL INFO

With its simple shapes and sharp lines Jazz modular soft seating works in almost any setting, ideal for reception and waiting areas and breakout spaces.

The sloped backrests and raised armrests provide a high level of comfort and the variety of fabrics available means that colours can be easily mixed and matched and swapped as desired.

The simple table design can be added in any section of seating and moved as required and aligned with power sockets in poufs to create a flexible individual workspace.

Jazz lounge seating works seamlessly with Jazz silent booth for increased privacy and sound absorption.

Fabrics can also be matched with Modus acoustic panels to create permanent alcove seating, ideal for dining areas and reception areas.

Arcipelago

Modular soft seating

TECHNICAL INFO

Create modern and functional office or public spaces with Arcipelago, a modular lounge seating system offering endless configuration possibilities whether individual workspaces, waiting areas, private meeting spaces or open meeting areas.

Thanks to its flexibility and 3 different height adjustment options, Arcipelago is a great choice for workspaces of any size and style. The high-back option provides more privacy and acoustic comfort.

Choose from a wide range of fabrics and colours or mix and match them to create a unique style for your office. Backrests and seat cushions can be easily removed and swapped. Choose your favourite configuration from standard options or build your custom configurations by mixing and matching modular components. Arcipelago is easy to assemble, disassemble or reassemble.

Arcipelago comes with well-designed accessories including: tables mounted between seats with integrated power socket and USB fast charger, mobile tables and armrests with power socket and USB fast charger.

Kardo®

Pole-mounted monitor arms

TECHNICAL INFO

The Kardo® fixed pole monitor arm is popular worldwide due to its appealing aesthetic and easy install design features.

We launched our first pole-mounted monitor arm in 2013 to help office workers avoid the risks associated with display screen equipment and save valuable desk space. With well over 250,000 units sold our Kardo® range has proved very popular and now includes arms for single, twin and quad screen setups.

Materials

Metal
Black (BK)
White (WH)
Grey (SV)

	PMA326	Six screen heavy duty monitor arm, 6 x 10kg capacity Black	559

Levo

UPDATED

Dynamic monitor arm & twin rail

TECHNICAL INFO

Our updated Levo monitor arm remains effortless to adjust whilst the unique connector pin system makes it easy to reconfigure for dual screens.

Simple to install, Levo is perfect for single or dual screens in agile working environments or with large touch screens at exhibitions or in reception areas.

Materials

Metal
Black (BK)
White (WH)
Twin rail only available in black

	CODE	DESCRIPTION	RSP (£)

	TSR902-BK	Levo dual screen mount to convert single arm to dual screens/monitors 2 x 4kg capacity (8kg total) Available in Black only	118
	GMA9TD-BK	Alternative through-desk clamp for Levo monitor arm Available in Black only	21
	LVS001	Universal laptop desk stand / holder, compatible with Levo and Kardo monitor arms, 10kg capacity, available in Black (BK) and White (WH)	67

Boost

Desktop power modules

TECHNICAL INFO

Beautifully stylish and incredibly compact, the Boost desktop module provides power exactly where you need it while using minimal space on your desk.

Boost is designed to appear subtle and unobtrusive at the rear of the desktop, available in white or black.

The modules include a choice of 1, 2 or 4 individually fused UK power sockets with a neon master switch, with the option of USB-A & USB-C fast charge sockets and RJ45 Cat6 data sockets. Mains power cables are available with a choice of 2, 3 or 5 metre length.

Materials

Plastic / Aluminium

Black (BK)

White (WH)

Please note: 500mm drop cables match module colour. Starter cables and connector cables are black only. Please contact us for power and connector cables in white.

Solo Plus

In-desk power modules

TECHNICAL INFO

Solo Plus offers the same compact simplicity of Solo with a single UK power socket and USB-A smart charge socket plus the addition of 2 x USB-C smart charge sockets - all in one Ø80mm module!

Choose from HDMI or Cat6 RJ45 data transfer inserts for both sides of the module or alternatively have them blank or leave empty for use as cable pass-throughs.

Secure Solo Plus in place with a choice of clamp-on collar or tab system for desk and tables where the collar won't fit.

Materials

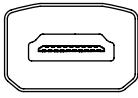

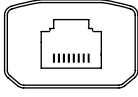

Plastic

Black (BK)

White (WH)

500mm drop cables match module colour. Separate power and data cables are black only. Please contact us for power / connector cables in white. Other starter and connector cable lengths are available on request.

Click

Hidden in-surface power module

TECHNICAL INFO

Click is an in-desk power module made with an all metal surround and lid. When closed the lid discretely hides any clutter while allowing cables to neatly pass onto the work surface through the sprung flap.

Simply press the lid to release and reveal the sockets. Click offers 2 Type G (UK) power sockets, USB-A and USB-C charge ports, RJ45 and HDMI data transfer ports.

Materials

Metal / Plastic *

Form

In-desk power modules

TECHNICAL INFO

The Form power and comms module has an extraordinarily low profile which fits flush to tabletop.

As well as offering combinations of power, data transfer and USB charge ports, the UK power sockets can be orientated to service users on both sides of the table.

The thin profile also makes it suitable for panel mounting and soft furnishing.

Powerlink

Underdesk power modules

TECHNICAL INFO

These simple but robust power modules can be installed in cable trays or fixed to the underside of the desk using the brackets or velcro pads provided.

With high quality aluminium alloy casing, solid construction and sleek appearance, Powerlink offers incredible value for money at a very affordable price.

Powerlink modules can be linked to other underdesk or desktop power modules, including Boost, using connector cables with a maximum of six power sockets in one series..

	LVS001	Universal laptop desk stand / holder, compatible with Levo and Kardo monitor arms	67

Cable management

Spines + Socks + Ducts + Clips + Ports + Trays

TECHNICAL INFO

Linx cable spine

Designed with strength, flexibility and ease of installation in mind, Linx offers the latest developments in superior cable management. The unique ‘twist not pull’ linking system ensures the vertebrae will never pull apart under tension, but will detach very easily when twisted sideways. This ensures that Linx never comes apart while in use, but remains incredibly easy to extend and manipulate when needed. Choose from different lengths for fixed height or sit/stand desks or without the base for use between cable trays on sit/stand benches.

Linx magnetic limpet

The Linx Limpet makes installation quick and easy, fixing the spine to cable trays or desk frame with a magnet. The spine can be easily relocated if required.

- Alternative multipurpose fixing clip will mount to cable tray, wire basket or desktop
- Large weighted stable base with dual cable exits
- Dual cable compartments 30mm x 25mm

Cable trays

Untidy power and data cables are unsightly, make cleaning difficult and can pose a safety risk. Use of a cable tray underneath the desk helps to keep cables neat and tidy and the workspace clear. The range of simple but strong steel cable trays is designed to suit various desk sizes and arrangements. Steel wire cable baskets will hinge down on brackets for easy access during installation of cables.
